PROFESSIONAL SUMMARY

Full Stack Developer with 1.5 year of professional experience building and contributing to web applications across the complete stack. Worked across diverse environments — from developing full-featured platforms from scratch to contributing to large-scale enterprise applications in a microservices architecture. Proficient in React.js, Node.js, and AWS cloud services. A quick learner and team player focused on building reliable, scalable, and user-friendly applications.

SKILLS

Frontend: React.js | Redux | Tailwind CSS | Bootstrap | PrimeReact

Backend: Node.js | Express.js | GraphQL | REST APIs | MongoDB | Mongoose | MySQL | Sequelize

Cloud & Serverless: AWS Lambda | AWS SAM | DynamoDB | Amazon S3 | Amazon SES | AWS CloudWatch

Auth & Security: JWT Authentication | Role-Based Access Control (RBAC)

Tools & Workflow: Git | GitHub | Postman

PROFESSIONAL EXPERIENCE

Junior Full Stack Engineer — Troniqs Rationale

01.02.2026 – 31.05.2026

Pharmacy Logistics Platform (Enterprise Product)

- Contributed to an existing enterprise-scale Pharmacy Logistics platform built on a microservices architecture, working on tickets raised by the QA team through Jira.
- Introduced to TypeScript, Redux, and GraphQL in a professional setting — gaining working familiarity with strongly typed codebases, state management, and API data fetching within a microservices environment.
- Used AWS CloudWatch on a daily basis to monitor logs, trace issues, and support debugging across services.
- Operated within a broader AWS-based cloud infrastructure, gaining awareness of how large-scale serverless systems are structured and maintained in production.

Full Stack Developer — Althi Solutions

2025 – 2026

University Website, Business Management Kit (BMT) & Admission Software Application

- Built and delivered a full-stack responsive university website for Noorul Islam College of Arts and Science, handling frontend development, backend APIs, database integration, authentication, WebSockets, and notification systems.
- Contributed to frontend development of the Business Management Kit (BMT) application, working across multiple modules to enhance usability and performance.
- Designed and developed the backend for a serverless Admission Management System using Node.js, AWS Lambda, DynamoDB, S3, and SES with role-based access control.

PROJECTS

1. University Website – Noorul Islam University (Arts & Science)

- Role:** Full Stack Developer | **Tech Stack:** React.js, PrimeReact, Node.js, Express.js, MongoDB, MySQL,
- Built a fully responsive university website with a clean, accessible UI using React.js and PrimeReact components.
 - Integrated MySQL via Sequelize for structured data management across the application.
 - Designed RESTful APIs, implemented JWT-based auth with RBAC, WebSocket real-time updates, and Brevo-powered email notifications.

2. Admission Management System – Serverless College Platform

- Role:** Backend Developer | **Tech Stack:** Node.js, AWS Lambda, AWS SAM, DynamoDB, Amazon S3, Amazon SES
- Designed and deployed a fully serverless Admission Management System to digitize student applications, scholarships, and scheme management.
 - Implemented role-based access control (Student, Admin, Super Admin) with JWT authentication for secure and scalable authorization.
 - Managed DynamoDB data models with optimized query access patterns, S3 for document storage, and SES for automated email notifications.
 - Used AWS SAM to define and deploy infrastructure as code, ensuring repeatable and consistent deployments across environments.

EDUCATION

Bachelor of Commerce, S.T. Hindu College	2018 – 2021 Nagercoil
HSC, S.N.M. Hindu Vidyalaya Matric Higher Secondary School	2016 – 2018 Nagercoil
SSLC, DVD Higher Secondary School	2015 – 2016 Nagercoil

CERTIFICATIONS

• Web Development Certification — Karka Academy	(July 2024 – Sept 2024)
• Meta Front-End Developer Professional Certificate	
• The Complete 2024 Web Development Bootcamp — Dr. Angela Yu
